

PRO-NUTRITION®

PROTECT⁺

**BECAUSE ITS HEALTH
IS YOUR PRIORITY**

Proven efficacy for your
pet's health

**SCIENTIFICALLY
PROVEN
EFFICACY**

A RANGE FORMULATED UNDER VETERINARY SUPERVISION

Formulated **under veterinary supervision**, Pro-Nutrition® Protect is a range of **dietary foods** designed to provide **nutritional solutions to the most common pathologies** and metabolic disorders.

These recipes have **proven, visible and rapid results** on your pet's state of **health and quality of life**.

FORMULATED
UNDER VETERINARY
SUPERVISION

VETERINARY

SCIENTIFICALLY PROVEN EFFECTIVENESS

Our **high-performance** recipes have been formulated to guarantee **optimum effectiveness** for the most common cat pathologies.

A DIETETIC RANGE WITH SPECIFIC NUTRITIONAL OBJECTIVES

The Protect range is made up entirely of **whole dietary food with 'Particular Nutritional Purposes' ('PARNUT')**. It complies with extremely rigorous specifications, assessed and validated by the European authorities, to **meet the specific nutritional requirements** associated with an animal's pathology. Thanks to a synergy of ingredients and essential contents that comply with nutritional requirements, each formulation guarantees the **optimum effectiveness** of our Protect food.

FOR AN OPTIMAL BALANCE OF THE INTESTINAL MICROBIOME

- › The **intestinal microbiome** is home to **billions of micro-organisms** which act as a **natural barrier**.
- › It has an impact on a number of vital functions such as the **digestive** and **immune systems**.
- › The '**P+ Microbiome Complex**' helps to maintain a **healthy ecosystem** for the balance and well-being of cats.

Yeast extracts

Diverse, balanced and resilient microbiome

Prebiotics

Optimum digestive comfort

Apple fibres

Smooth intestinal transit

PLANT ACTIVE BENEFIT

To **boost the effectiveness** of our food,
all our Protect formulas include a
diverse blend of plants with
recognised benefits for cats' health.

MADE IN FRANCE

Experts in nutrition **since 1965**, we are a **French company** on a human scale. We design and **manufacture 100%** of our products in our factory based in Brittany, and most of our raw materials come from **Western France**.

URINARY

COMPLETE DIETETIC FOOD FOR CATS SUFFERING FROM URINARY DISORDERS

Dissolution and prevention of struvite stones

With an optimal balance of minerals and amino acids, Protect Urinary reduces the potential for crystallisation in the urine and provides an optimal urinary pH for the dissolution and prevention of struvite stones. This food is also plant-based, with meadowsweet and Canada horseweed, for everyday urinary comfort.

Prevention of calcium oxalate stones

Formulated with low-oxalate ingredients for ideal urine ion composition, Protect Urinary reduces the formation of calcium oxalate stones. This food also contains heather, linden, elderberry, bearberry and cranberry for healthy urinary function.

PARTICULAR NUTRITIONAL PURPOSES

- + Dissolution of struvite stones.
- + Reduces recurrent struvite stone formation.
- + Reduces the formation of oxalate stones.

COMPOSITION

Dehydrated animal proteins 21% (chicken, duck, turkey, pork). Rice. Duck fat. Corn gluten. Peas. Tapioca. Potato starch. Dehydrated fish. Apple fibres. Animal protein hydrolysates. Linseed. Sea salt. Brewer's yeast. Fish oil. Calcium sulphate. Fish autolysates (0.6%). Potassium chloride. Fructo-oligosaccharides. Heather. Linden. Canadian horseweed. Meadowsweet. Elderberries. Bearberry. Cranberry. Yeast extracts (*Saccharomyces cerevisiae*, *Cyberlindnera jadinii*). Yucca.

Urine undersaturating properties for struvite. Urine acidifying properties. Low level of calcium oxalate. Urine alkalisng substances: Potassium citrate (0.5%).

INDICATIONS

- › Prevents recurring calcium oxalate stones in urine
- › Urinary struvite stones: dissolution and prevention of recurrence
- › Idiopathic cystitis

CONTRAINDICATIONS

- › Growing cats
- › Reproduction
- › Cardiac insufficiency
- › Renal insufficiency
- › Use of medications with urine acidifying
- › Cystine stones
- › Uric acid stones

DISSOLUTION OF STRUVITE STONES

Ability to dissolve of struvite stones in 17 days in **100%** of cats.

RSS* VALUE (STRUVITE)

*RSS (relative supersaturation of urine) is a parameter studied to determine the risk of urolithiasis (urinary stones). Study conducted at a veterinary school.

STRUVITE DISSOLUTION AND PREVENTION

RSS < 1

Elimination of struvite urinary stones

UNDER-SATURATION

STRUVITE PREVENTION

1 < RSS < 2,5

No formation of struvite urinary stones

METASTABLE STATE

STRUVITE DANGER

RSS > 2,5

Formation of struvite urinary stones

OVER-SATURATION

PLANT ACTIVE BENEFIT

Heather, Bearberry: antiseptic properties / **Canadian horseweed, Meadowsweet:** anti-inflammatory and analgesic properties / **Elderberry, Linden, Meadowsweet, Cranberry:** anti-inflammatory and diuretic properties / **Linden:** antispasmodic properties.

OBESITE

COMPLETE DIETETIC FOOD FOR CATS SUFFERING FROM OBESITY DISORDERS

Supports satiety

With the combination of chia seeds, psyllium and insoluble fibres, Protect Obésité encourages a high ration volume to reduce the feeling of hunger. Its low-calorie (3290 kcal/kg), high-protein formula also helps your cat to lose weight and maintain muscle mass.

Blood glucose / Diabetes

Protect Obésité is formulated with reduced starch and sugar content. Rich in dietary fibres and with L-carnitine, Protect Obésité also promotes fat loss and limits blood glucose spikes.

2 kg and 8 kg bags

PARTICULAR NUTRITIONAL PURPOSES

- + Reducing excess weight.
- + Regulation of glucose intake (*Diabetes mellitus*).

COMPOSITION

Dehydrated animal proteins 30% (chicken, turkey, pork). Broad bean fibres. Rice. Corn gluten. Apple fibres. Duck fat. Linseed. Peas. Dehydrated fish. Animal protein hydrolysates. Psyllium. Hydrolysed yeast. Fish autolysates (0.6%). Brewer's yeast. Artichoke. Calcium sulphate. Chia seeds. Potassium chloride. Sea salt. Algal oil. Fructo-oligosaccharides. Yeast extracts (*Saccharomyces cerevisiae*, *Cyberlindnera jadinii*). Yucca

Carbohydrate sources : rice, peas.

Sources of oméga 3 : linseed, algae oil, chia seeds.

Low level of monosaccharides and disaccharides.

INDICATIONS

- › Overweight / obesity (weight loss)
- › Diabetes mellitus
- › Fibre-responsive diarrhoea
- › Constipation, dilation of the colon
- › Hypothyroidism associated with overweight condition or obesity
- › Hairball control

CONTRAINDICATIONS

- › Growing cat
- › Reproduction
- › Cachexia
- › Weight loss
- › Renal insufficiency

WEIGHT LOSS

100% of overweight cats began to lose weight within 28 days of using Protect OBESITE.

** Significant difference compared to initial. Study conducted in veterinary clinics.*

PLANT ACTIVE BENEFIT

Psyllium, Chia: satiety and proper intestinal transit / **Chia:** anti-inflammatory and analgesic properties / **Artichoke:** liver protection & stimulation of bile secretion.

DIGEST

COMPLETE DIETETIC FOOD FOR CATS SUFFERING FROM DIGESTIVE DISORDERS

Digestive health

With a selection of highly digestible ingredients and a moderate fat content, Protect Digest contributes to healthy digestion in your cat. This feed is formulated with plants (milk thistle, artichoke, bushwillow, boldo) for healthy liver and bile functioning on a daily basis.

Probiotics

Protect Digest contains probiotics (beneficial live micro-organisms), prebiotics and yeast extracts: these help to stabilize the intestinal flora, support the immune system and maintain a healthy microbiome.

2 kg and 8 kg bags

PARTICULAR NUTRITIONAL PURPOSES

- + Compensation for maldigestion.
- + Reduced risk of intestinal malabsorption.

COMPOSITION

Dehydrated duck proteins (11%). Rice. Dehulled oats. Broad bean fibres. Dehydrated fish. Fish protein, hydrolysed. Pea starch. Duck fat. Tapioca. Apple fibres. Linseed. Animal protein hydrolysates. Psyllium. Brewer's yeast. Fish autolysates (0.6%). Potassium chloride. Algal oil. Milk thistle seed. Calcium sulphate. Fructo-oligosaccharides. Artichoke. Boldo. Bushwillow. Turmeric. Rosemary. Yeast extracts (*Saccharomyces cerevisiae*, *Cyberlindnera jadinii*). Soluble fermentation extract of *Bacillus licheniformis*, rich in protein. Yucca.

Highly digestible ingredient sources: Dehulled oats, Pea starch, Rice, Tapioca, Fish protein hydrolysed.

Highly digestible feed with increased sodium and potassium.

INDICATIONS

- › Chronic enteropathy (acute or chronic diarrhoea, food intolerance, malabsorption-maldigestion, vomiting)
- › Acute or chronic pancreatitis
- › Food-related dermatitis
- › Constipation, dilation of the colon
- › Hairball control

CONTRAINDICATIONS

- › Growing cats
- › Reproduction
- › Liver problems

PROTEIN DIGESTIBILITY

Highly digestible proteins for good digestion and an optimal faecal score.

** Study conducted at a veterinary school.*

*** Reg (UE) 2020/354.*

PLANT ACTIVE BENEFIT

Artichoke, Milk thistle: liver protection & stimulation of bile secretion / **Psyllium:** satiety and healthy intestinal transit / **Bushwillow, Boldo:** stimulation of bile synthesis and secretion / **Tumeric, Rosemary:** antioxidant properties.

HAIR&SKIN

COMPLETE DIETETIC FOOD FOR CATS SUFFERING FROM DERMATOLOGICAL DISORDERS

Reduces itching

Protect Hair & Skin helps support skin function and reduces the symptoms associated with skin problems such as itching, with a recipe enriched with essential fatty acids: borage seeds rich in omega-6 and algal oil rich in omega-3.

Silky coat, healthy skin

Protect Hair & Skin promotes healthy skin and a silky coat with highly digestible ingredients and plants, combined with biotin and chelated zinc. Its fish-based recipe reduces the risk of food intolerances which can affect coat quality.

2 kg bag

PARTICULAR NUTRITIONAL PURPOSES

- + Supports dermal function in cases of dermatitis and depilation.
- + Reduced intolerance to certain ingredients and nutrients.

COMPOSITION

Dehydrated fish (23%). Rice. Dehulled oats. Duck fat. Peas. Dehydrated salmon proteins (5%). Apple fibres. Linseed. Animal protein hydrolysates. Psyllium. Borage seeds. Fish autolysates (0.6%). Brewer's yeast. Potassium chloride. Algal oil. Calcium sulphate. Fructo-oligosaccharides. Artichoke. Boldo. Bushwillow. Turmeric. Rosemary. Yeast extracts (*Saccharomyces cerevisiae*, *Cyberlindnera jadinii*). Yucca.

High level of linoleic acid (LA) and of sum of eicosapentaenoic acid (EPA) and docosahexaenoic acid (DHA): : sum of EPA + DHA = 0,67%. / **Selected and limited protein sources** : dehydrated salmon proteins, dehydrated fish. / **Selected carbohydrate sources**: rice, dehulled oats, peas. / **Sources of omega 6 and 3**: borage seeds, duck fat, linseed, algal oil.

INDICATIONS

- › Atopic dermatitis
- › Support of skin function in dermatoses and atopic dermatitis, scarring, excessive loss of hair, pyoderma and hot spots
- › Food intolerance
- › Convalescence
- › Cachexia

CONTRAINDICATIONS

- › Growing cats
- › Reproduction
- › Liver problems

COAT IMPROVEMENT

In **83%** of cats with rough hair and a dull coat after 8 weeks' use of Protect HAIR & SKIN.

*** Significant difference compared to initial. Potloc study.*

PLANT ACTIVE BENEFIT

Borage: support of skin function / **Artichoke:** liver protection & stimulation of bile secretion / **Psyllium:** satiety and healthy intestinal transit / **Bushwillow, Boldo:** stimulation of bile synthesis and secretion / **Tumeric, Rosemary:** antioxidant properties.

CARE 8+

COMPLETE DIETETIC FOOD FOR CATS OVER 8 YEARS OLD

Kidney & heart health

With its formula enriched with omega-3 fatty acids (EPA and DHA) and a tailored protein and mineral content, Protect Care 8+ helps support your cat's kidney and heart function.

Support mobility

Enriched with hydrolysed marine collagen, bamboo and nettle, Protect Care 8+ promotes healthy bones and joints. The addition of plants like harpagophytum and fish oil, rich in omega-3 fatty acids (EPA and DHA), is also beneficial for the mobility of cats suffering from bone and joint problem.

PARTICULAR NUTRITIONAL PURPOSES

- + Support for renal function in chronic renal failure.
- + Supports joint metabolism in cases of osteoarthritis.
- + Support for cardiac function in chronic heart failure.

COMPOSITION

Dehydrated animal proteins 24% (chicken, turkey, pork). Corn. Rice. Duck fat. Tapioca. Apple fibres. Corn gluten. Broad bean fibres. Animal protein hydrolysates. Fish oil. Linseed. Psyllium. Brewer's yeast. Fish autolysates (0.6%). Calcium carbonate. Hydrolysed yeast. Calcium sulphate. Fructo-oligosaccharides. Marine peptides (type II hydrolysed collagen). Potassium chloride. Canadian horsetweed. Meadowsweet. Harpagophytum. Bamboo. Artichoke. Boldo. Bushwillow. Turmeric. Rosemary. Yeast extracts (*Saccharomyces cerevisiae*, *Cyberlindnera jadinii*). Heather. Linden. Elderberries. Bearberry. Nettle. Cranberry. Blackcurrant. Yucca.

Protein sources : Dehydrated chicken, turkey and pork proteins, corn gluten.

Sources of oméga 3 : linseed, fish oil.

INDICATIONS

- › Bone & joint diseases
- › Improves mobility
- › IRIS stage 1 and 2 chronic kidney disease
- › Support of heart function in the case of chronic cardiac insufficiency and/or hypertension
- › Convalescence
- › Cachexia

CONTRAINDICATIONS

- › Growing cats
- › Reproduction
- › Hyponatremia
- › Hyperlipidemia

IMPROVING MOBILITY

83% of cats improved their mobility after 21 days of using Protect CARE 8+.

** Significant difference compared with the initial. Potloc study.*

PLANT ACTIVE BENEFIT

Harpagophytum, Canadian fleabane, Meadowsweet: anti-inflammatory and analgesic properties / **Artichoke:** liver protection & stimulation of biliary secretion / **Psyllium:** satiety and healthy intestinal transit / **Bushwillow, Boldo:** stimulation of biliary synthesis and secretion / **Elderberry, Linden, Meadowsweet, Cranberry:** anti-inflammatory and diuretic properties / **Bearberry, Heather:** antiseptic properties / **Tumeric, Blackcurrant, Rosemary, Cranberry:** antioxidant properties / **Bamboo, Nettle:** bone and joint health / **Lime:** antispasmodic properties.
